

## A True Digital Mortgage Lending Solution

Close loans faster, improve consumer satisfaction and ROI, and optimize end-to-end loan origination with MeridianLink® Mortgage, a cloud-based loan origination system (LOS) designed to help financial institutions like yours create a 100%-digital mortgage lending process.

### Automated Underwriting

Reduce manual underwriting with PriceMyLoan®, a product pricing engine that handles underwriting, product pricing, closing cost fee generation, and margin management within a single comprehensive tool.

### Stay Compliant

Maintain best practices with automated compliance integrations, built-in regulatory checks, and customizable business rules to create red-flag notifications and hard stops to prevent potential issues.

### Create Custom Workflows

Choose from hundreds of third-party vendor integrations and multiple configuration options in an open API to create processes truly tailored to your institution's needs.

## Take Advantage of Added Operational Efficiencies Including:

- Seamless integrations for service ordering (VOX, Appraisal, 4506-T, etc.) and automated tracking for services ordered and received
- Loan data-specific automated conditioning with the ability to create permission levels for condition sign-off
- Integrated with multiple major document providers and includes eClosing capabilities
- Natively built document management system for easy organization throughout the lending process with functions including annotations, links to conditions, and more

“

We are closing loans much faster, the processes are smoother, there's less manual work being done, [and] member experience is amazing now.”

—David Routt

VP Real Estate Lending,  
Member One Federal Credit Union

“

To achieve what other competitors have in their demo you have to spend hundreds of thousands of dollars. Not with MeridianLink Mortgage.”

—Toma Ghiran

Systems Administrator,  
FlexPoint Inc.
